

# SOHO

Drawing inspiration from the visual typologies of classical European modern and blending them with influences from the traditional Zen features of the Far East, SOHO COLLECTION consists of a highly flexible, modular seating unit and a console table with sleek metal legs; both linear and masculine, that complement the amorphous nature of the pebble-like coffee tables of different sizes. While flexibility and efficiency are the main features of the collection, it brings a worldly, unpretentious character and conveys a sense of mental and physical comfort to any space.

## SOFA

W.364 x D.106 x H.70 cm

Designed by **Christophe Pillet**

An art lover/collector's fave due to its dignified lines that do not compete with works of art, SOHO SOFA is a formal systems furniture with versatile composition possibilities. The metal frame covered in leather or nubuck supports the base and gently curls towards the rear to grasp the backrest and emphasizes the continuous, horizontal setting of the sofa. The metal frame is slightly hoisted from the floor to provide a hovering effect. The primary seating unit clusters the high or low back daybed modules, a rectangular side table equipped with a built-in wireless charger, and a LED reading lamp. Armrests come in two options; a massive, cuboid end module and a lightweight, floating horizontal joint element. The latter constitutes a junction between an attached or self-standing side table and the seater. The side table module has different wood veneer options, and the seaters come in fabrics like velvet and bouclé, in addition to leather or nubuck. The graphic upholstery stitching is a tribute to the traditional French padding technique, capitonné, applied on particular modules to create diverse surface textures and give way to inventive compositions.

# Natural existence

Rejecting the idea of superiority and focusing on the beauty of tiny imperfections of natural existence, SOHO COFFEE TABLE follows the noted methods of Wabi-Sabi philosophy with its rounded amorphous forms and the sandblasted surface revealing veins that suggest the sensation of touching the bark of a tree. The solid wood coffee tables are produced in three dissimilar shapes and sizes and come in assorted colors. Soho Coffee Tables complement and counterbalance the strictly cultivated details, rigid edges, and pure geometric forms of the Soho Sofa with their raw texture and bulbous forms.
